

**IN THE SPECIFICATION**

Kindly amend the specification as follows:

Page 2 replace the second paragraph starting at line 11 with the following:

It is evident from the above ~~that though~~ prior art that the disclosed process ~~looks conceptually very good but practically,~~ it is very cumbersome ~~[[&]]~~ and time consuming. One will require carrying ~~have to carry~~ out number of ~~times~~ repeated operations as well as analysis to obtain optically pure compound I. Therefore, the ~~above mentioned~~ process disclosed in prior art is not ~~[[a]]~~ suitable ~~process~~ to operate ~~[[for]]~~ at large-scale production.
